DOLPHIN dx2 Hybrid ***NEW***

Recommended for pools up to 36 ft. in length

Maytronics is proud to present a technological breakthrough in suction pool cleaners.

Maytronics designed the new Dolphin dx2 Hybrid to combine cost-efficiency with ease of use. Its unique technology creates new standards in the field of suction pool cleaners.

Dolphin dx2 Hybrid is the only suction pool cleaner that offers:

- Active brushing system (brushes rotate as the dx2 Hybrid travels through the pool).
- Systematic scanning that covers the entire pool.
- Smart transmission system enables optimal maneuvering in the pool.

Dolphin dx2 Hybrid makes pool maintenance easy and cost-effective:

- Electronically self powered, uses water flow to generate the required energy for the cleaner's electronic scanning system.
- Easy installation, no tools required.
- DIY user-friendly maintenance.
- Electronic LED signifies normal operation and provides indications and warnings.
- Powerful suction provides efficient pool coverage and cleaning.
- Lightweight system only weighs 8.15 lbs.
- 10 hoses of 3.8 ft. each are included.

Each Dolphin dx2 Hybrid includes:

- Automatic safety valve and regulator.
- Hose adapter.
- Suction flow indicator.
- 90° angle fitting.
- 12 month warranty on all parts*

Optional leaf collector with filtration of 200 micron.

Dolphin dx2 Hybrid Specifications:

Weight	8.15 lb.
Hose length	10 hoses of 3.8 ft.
Pump required	0.75 HP
Warranty	12 months

DOLPHIN dx3

Cleans pool floor, cove and walls

Recommended for all types of pools up to 40 ft. in length.

Maytronics' powerful Dolphin dx3 sets the standard in pool cleaning technology

Dolphin dx3 is an affordable, easy-to-service robot that sets the standard in the market today. Dolphin dx3 scans, brushes, cleans and filters the pool including the corners, pool cove, and walls.

Dolphin dx3:

- NEW! Now climbs and cleans the walls.
- Scrubs, vacuums and filters the pool in just 3 hours.
- Extra powerful brushing performance.
- Large self-contained inner filter bag collects dirt, debris and even dust particles.
- Optional cartridge filter available.
- Independent unit - no pre installation needed, no connections to pool system.
- State of the art software scans the pool for optimal cleaning.
- Low voltage = low energy consumption - costs less than 15 cents to clean the pool.
- Small, light weight and easy to handle.
- Easy maintenance.
- 12 month warranty, non-prorated*

DOLPHIN dx4

Cleans, scrubs, vacuums pool floor, walls and waterline

Features patented cable swivel

Recommended for all types of pools up to 50 ft. in length.

Dolphin dx4 takes the hard work out of cleaning your pool.

Dolphin dx4 is the robust, reliable and affordable member of the Dolphin dx family, renowned for its sturdy structure, wall climbing capacities and proven performance.

Dolphin dx4 will scrub, brush, sweep, vacuum and filter the entire pool in just 2.5 hours.

Large filter surface ensures your pool stays crystal clear and helps reduce the need for cleaning chemicals.

Dolphin dx4 is a dependable robot engineered to minimize the time spent cleaning the pool.

Dolphin dx4:

- Scrubs, brushes, vacuums and filters the pool, floor, walls and waterline.
- Large self-contained inner filter bag collects dirt, debris and even dust particles.
- Optional filter cartridge available.
- State of the art advanced scanning program that optimizes pool coverage.
- Climbs and cleans the walls and scrubs the waterline.
- Environmentally-friendly cleaning process that reduces chemical usage.
- Patented Swivel - prevents cable tangling.
- Low voltage = low energy consumption - it costs less than 15 cents to operate!
- Adjustable floats for pools using salt systems.
- Easy maintenance.
- Includes caddy for handling and storage.
- 24 month warranty – parts and labor, non-prorated*

Dolphin dx4 Specifications:

Cycle time	2.5 hours
Cable length	65 ft.
Filter bag porosity	Ultra Fine porosity
Suction rate	4,233 gal per hour
Power supply	IP 54
	Input 115 VAC
	Output less than 24 VAC

ABOUT MAYTRONICS

Maytronics Ltd. the pioneer and world leader in automated electronic pool cleaning technology for residential and large commercial pools, and the developer of the popular Dolphin series of robot cleaners, was established in 1983.

The latest generation of Dolphin robot products has been internationally recognized as the cutting-edge of pool cleaning robots, with an outstanding list of patented features, sold worldwide in over 42 countries.

Our multidisciplinary Dolphin systems are extensively tested in real-world conditions, and conform to ISO 9001, 2000 edition, CE/ETL regulations and are RoHS Compliant (Lead free components).

Maytronics' easy-access service centers are located close to you, and provide fast repair, convenience and efficiency. Most repairs can be performed by the selling dealer.

Maytronics US, Inc. and Dolphin robotic cleaners are proud to offer eco-friendly cleaning technology for all pool types and sizes. These robotic cleaners cost as little as 15 cents per cleaning to operate and reduce the need for backwashing.

These quality Dolphin Robotic swimming pool cleaners are available at:

Dolphin is a registered trademark of Maytronics US Incorporated, Maytronics Ltd. world wide, copyright 2009. Maytronics Dolphin pool cleaners are distributed in North America by Maytronics US Incorporated, a wholly owned subsidiary of Maytronics Ltd. Maytronics manufactures pool cleaners for residential and large commercial pools.

Manufactured for North America only
